David Bonnaud

https://www.davidbonnaud.com/ | (949)-302-4265 | dbonnaud@outlook.com | Laguna Hills, CA

Skills

Languages: Java, Python, SQL, JavaScript, C#, Ruby on Rails, HTML/CSS
Technologies: AWS, APIs, Jenkins, React, TypeScript, Node, Git, Jira

Experience

Cloud Engineer **Fidelity Investments** Jul 2023 – Present

- Designed and implemented **AWS** data migration solutions, transitioning from **DynamoDB** to **PostgreSQL** for improved scalability and performance.
- Architected and deployed CI/CD pipelines for a monorepo structure using **Jenkins**, enhancing **automation** and development efficiency.
- Led development for new microservices of the core backend platform with **Java**, driving improved system modularity and performance.
- Collaborated with stakeholders, rapidly developing and testing numerous REST **APIs**.

Front End Developer **HeyFans** Aug 2021 – May 2022

- **Led development and designs** for a marketing page with a team of frontend developers to entice new users to join the platform.
- Developed using industry standard **mobile first** design principles, **HTML, CSS, and JavaScript** successfully leading to higher user engagement.

Code Instructor **Code Ninjas** Jun 2020 – Dec 2020

- Led instruction for young adults through programming activities such as web and game development using **JavaScript, C#, and Scratch**.
- Created advanced lessons for programming concepts in **Python** in practical projects using Py.game, Matplotlib, and **Django**.

Projects

Personal Portfolio Website **https://www.davidbonnaud.com/**

- Created a portfolio website utilizing industry best practices using **TypeScript React** and various libraries.

FishHooked **https://www.eep.solutions/**

- Custom e-commerce marketplace designed and developed with **scalability** for large quantities of transactions in mind using **Next.js** and **Sanity** for seamless headless integration.

Certifications

AWS Cloud Practitioner Mar 2023
Full Stack Web Development – Southern Methodist University Jun 2019 – Dec 2019

Education

California State University, Fullerton Bachelor of Science in Computer Science
Awards: Deans List Graduated: May 2022
Relevant Courses: Data Structures, C++, Web Development, Python, Operating Systems
